

Loewe aura.pure barista set

Loewe accessoires Café

The Loewe aura.pure barista set consists of a wooden tamper station, a knock-box and a leveler, and completes the barista setup at home. The tamper station made of real wood is the ideal prerequisite for the perfect espresso, as it allows the correct tamper pressure to be applied. The elegant knock box in basalt grey matches the design of the coffee machine perfectly and is the ideal tool for tapping the coffee grounds. The clever design of the knock box and tamper station allows for two set-up solutions, either side by side or stacked on top of each other. The additional leveler completes the barista set, as it allows for easy handling for the perfect and even pressure depth.
