

# Loewe **stellar**

The craft design TV with Loewe dual channel dr+ and Tizen

- High performance OLED module designed, engineered and tailored by Loewe in Kronach
- Dual channel dr+ system with double triple tuner and SSD for multi view and multi recording
- Full support of 4x HDMI 2.1 and Ultra HD @ 144 Hz VRR for high-speed gaming
- Rich variety of smart streaming apps and VOD services with Tizen OS
- Powerful integrated sound bar with 300 watts and Center-In for superior audio performance
- Integrated ultra-slim wall mount, optional motorized table or floor stand
- Sophisticated design with real materials and magic moments of light and motion

LOEWE. was established by the Loewe brothers as Radio Frequenz GmbH in Berlin in 1923. Today we still design, develop and produce consumer electronics – Made in Germany.

# Loewe stellar (ti)

The craft design TV with Loewe dual channel dr+ and Tizen

## Home-made OLED module

The latest generation and technology of OLED open cells with master black polarizer offer highest brightness and unparalleled motion picture performance in Ultra HD resolution.

The OLED module is designed, engineered and tailored by Loewe in Kronach with alu-compound back-forming, massive alu frame and real concrete or aluminum back-cover.

Pre-calibrated in our factory and supporting HDR 10+ Adaptive, these displays meet all relevant filmmaker picture and colour standards for a perfectly natural and impressive movie reproduction.

## Loewe dual channel dr+

Equipped with a dual channel chassis, double triple-tuners and a large SSD, the Loewe dr+ system offers multiple viewing and recording possibilities from EPG programmed recording to spontaneous timeshift functions.

Tuners for DVB-T2/C/S2 HD and a easy accessible CI slot support various reception and recording scenarios. The Solid State Drive is perfect for video applications and both energy efficient, extra fast and absolutely noise-less for maximum comfort.

## Tizen OS

The premium Tizen OS version 8 is a most convenient and fast smart operating system. The app store offers an extra-large selection of smart apps and a rich variety of video-on-demand services, including e.g. Netflix, YouTube, Disney+ and more.

The system is also compatible with advanced networking features: The support of broad-used dlna, Miracast and others allow comfortable content sharing and control via the home network.

Flexible connectivity with HDMI 2.1 including Ultra HD @ 144 Hz VRR ensures full support of latest game consoles on all four HDMI inputs.

## Integrated sound bar and magic.light

An impressive 300 watts front-firing active soundbar behind a special acoustic fabric black speaker grill in harmony together with the Loewe signature.ring and the Loewe magic.light - for a discretely welcome and farewell animation or an atmospheric illumination during movie watching.

Simply adjust it as desired in any colour of the rainbow, at different brightness and saturation levels, by the touch of a button on the Loewe stellar remote.

The dedicated Center-Input allows to apply Loewe stellar 77-83 as the important Center-Speaker in a multi channel home cinema environment.

## Design craftsmanship

Sophisticated craft design and clever construction details from the in-house Loewe design and innovation studio.

Created with selected real materials like a four-sided brushed full aluminum frame in a diamond-cut shape, real glas-fiber enforced concrete or aluminum on the back panel and a rotatable table stand made of massive aluminum with a fine hairline-brushed finish. The real concrete back-cover gives each TV its unique fingerprint.

All connections are hidden, and all cables are well guided and hidden by the integrated cable management plus cable covers in the light grey rear cabinet. The solid VESA bolts support any mounting solution.

## Sophisticated setup solutions

The Loewe magic.motion feature rotates the TV set motorized on the optional Loewe table or floor stand motorized by the touch of a button on the remote control up to 45° left or right - absolutely silent and smooth

Of course the floor stand is also made of massive aluminum with a fine hairline-brushed finish. The optional floor2ceiling stand creates a spectacular free-floating 360° presentation, the wall mount stellar allows an extra slim wall solution.
